SAVE THE DATE!!! **Registrations will open in January!**

National Engineers Week (E-Week) is celebrated around the country every year in February to commemorate the birth of engineering, *beginning with the first US engineer and President, George Washington*. In New Hampshire, the highlight of this weeklong celebration is the Annual Awards Banquet and Engineering Trade Show held at the Radisson Hotel - Center of NH in Manchester. On behalf of the New Hampshire Society of Professional Engineers (NHSPE) and the New Hampshire Joint Engineering Societies (NHJES), we invite you to join us for casual evening with friends and colleagues to honor the recipients of our scholarships, Engineer of the Year and Young Engineer of the Year.

In celebrating 61 years of National Engineers Week, we are also offering an afternoon of educational sessions/ guest speakers for a total of 3 Professional Development Hours (PDHs) for our Engineering Professionals.

Our Key-Note dinner speaker this year is Mr. Carl L. Quiram, P.E., PWLF, the Director of Public Works in Goffstown, NH. Carl will be speaking about his involvement with Global Solutions. One of the purposes of Global Solutions is to provide outreach to share best practices with public works officials in underdeveloped countries across the world. Specifically Carl will share his experience about his trip to Haiti which is a prime example of why sustainable infrastructure is desperately needed as the lack of clean water, sanitation, proper building practices, transportation, and utilities all contribute to a disease ridden, unhealthy society with a life expectancy of 52 years.

If you have questions or wish to sponsor and/or participate in the Trade Show event, please contact Larry Dwyer, P.E. or by email at Ljdwyer@terracon.com.

For more information on National Engineers Week and the National Engineers Week Foundation (NEWF), visit <http://www.eweek.org/Home.aspx>. The NEWF is at the National Society of Professional Engineers (NSPE), 1420 King Street, Alexandria, VA 22134. NSPE is the Foundation Secretariat and initiated National Engineers Week in 1951. NHPSE is the State Society of NSPE.
